Strafford is experiencing rapidly increasing costs in the operation of our Transfer Station and Recycling Center. Each ton of material hauled out of the Center by a commercial operator brings two charges to the town: a hauling charge and a tipping charge. Strafford no longer operates as a landfill, so careful disposal practices are compulsory. Cooperation on the part of all users is required. Due to the terms of our contract with the haulers, only the items listed in this brochure are recyclable in Strafford.

Please read the attached recycling guidelines and post them in your household so others may do the same. Any deviation from the guidelines causes unnecessary charges and fees.
